WRITTEN STATEMENT OF
GANS COMMUNICATIONS, L.P.

August 12, 2014

VIA ECFS

Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Attn: Ryan Yates, Esq.; Telecommunications Access Policy Division,
Wireline Competition Bureau

**Re: WC Docket Nos. 10-90, 14-93; DA 14-92;
Connect America Fund Phase II Challenge**

Dear Mr. Yates:

Gans Communications, L.P. dba MetroCast Communications (“MetroCast”), FRN 007609514, hereby certifies that MetroCast offers qualifying residential fixed voice and broadband services in all the St. Mary’s County, Maryland census blocks set forth on the attached FCC Form 505. MetroCast demonstrates that it serves these census blocks with voice and broadband services meeting the Commission’s performance and pricing criteria using the following attached evidence, including but not limited to: (i) subscriber invoices for each census block (redacted to protect personally identifiable information and CPNI); (ii) census information, including census block maps; (iii) copies of performance and pricing information provided publicly on MetroCast’s website; (iv) copies of MetroCast’s Acceptable Use Policy and Network Management Policy; and (v) copies of MetroCast’s marketing materials promoting the availability of internet and voice services.

1. **Served Census Blocks:** The attached redacted subscriber invoices and associated census information and maps demonstrate that MetroCast serves the relevant census blocks as defined by Commission’s standards. All MetroCast services, including broadband internet, digital voice and digital video products, are available in the census blocks set forth on the attached FCC Form 505.
2. **Broadband and Voice Service.**
 - a. **Broadband Speed:** The attached copy of MetroCast’s Network Management Policy, as well as and copies of screenshots from MetroCast’s website, confirm that two of MetroCast’s internet service plans, the High Speed Internet and the High Speed Ultra, offer mean speeds of 16.34 Mbps / 1.43 Mbps and 45.52 Mbps / 4.55 Mbps, respectively, which meet or exceed the FCC’s speed threshold of at least 4 Mbps downstream and 1 Mbps upstream.
 - b. **Broadband Usage Allowance:** The attached copy of MetroCast’s High Speed Internet Acceptable Use Policy (“AUP”) demonstrates that three MetroCast internet service plans have usage allowances equal to or exceeding the Commission’s 100 GB performance standard: the High Speed Basic, the High

Speed, and the Gamer offer usage allowances of 100 GB, 250 GB, and 350 GB, respectively.

- c. **Broadband Latency**: The attached copy of MetroCast's Network Management Policy confirms that all MetroCast's internet service plans have a latency of 21ms, which is far below the Commission's maximum 100ms performance criterion.
- d. **Broadband and Voice Pricing**: MetroCast's pricing in the challenged census blocks are "reasonably comparable" under the Commission's standards to prices offered in urban areas for the same or similar services. As reflected in the attached screenshots of MetroCast's website, MetroCast's rates are identical in both urban and rural areas; in fact, MetroCast offers uniform rates throughout the entire state of Maryland. In addition, MetroCast's rates are less than the FCC's interim benchmark prices: MetroCast's non-promotional price for voice services, \$44.95, is below the FCC's voice-services benchmark of \$46.96, and MetroCast's non-promotional price for qualifying broadband services starts at \$50.95, far below the FCC's benchmark of \$60 for qualifying broadband services.
- e. **Voice Service**: As demonstrated by MetroCast's FCC Form 477, MetroCast itself provides Voice Over Internet Protocol ("VoIP") voice service in the state of Maryland, including in MetroCast's St. Mary's County service area.

In sum, MetroCast serves all the St. Mary's County, Maryland census blocks included on the attached FCC Form 505 with voice and broadband services that meet or exceed the Commission's performance and pricing criteria.

MetroCast is a leading provider of High Speed Internet, Digital Voice and Digital Video services to residents and businesses in small towns and rural areas in Alabama, Connecticut, Maine, Maryland, Mississippi, New Hampshire, Pennsylvania, South Carolina and Virginia. MetroCast is focused on serving small towns and rural areas with the same advanced products and services that are available in more urban areas. More information can be found at www.MetroCast.com.

Please contact us if you have any questions regarding the foregoing or require additional evidence.

Respectfully submitted,

/s/

Danny L. Jobe

MetroCast High Speed Internet Acceptable Use Policy

[Printer Friendly](#)

MetroCast Communications ("MetroCast") is dedicated to providing high quality Internet service for our customers. As part of our efforts to accomplish that objective, MetroCast has implemented this Acceptable Use Policy (this "Policy") for MetroCast High Speed Internet Service for residential customers (the "Service"). This Policy is in addition to the terms and conditions set forth in the [MetroCast Subscriber Agreement](#) and the [MetroCast High Speed Internet Privacy Policy](#).

All customers, as well as any other users, of the Service (the "subscriber," "customer," "user," or "you") must comply with this Policy. If you do not agree to comply with this Policy, you must immediately stop using the Service and notify MetroCast.

Prohibited Uses

You may not use the Service, any MetroCast equipment or any connected device to:

- ✦ undertake or accomplish any unlawful purpose, including, but not limited to, posting, storing, transmitting or distributing information, data or material that is obscene, illegal, threatening, libelous or defamatory, or that in any way promotes illegal activity, could reasonably be expected to lead to civil liability or otherwise violate any local, state, federal or international law, order, rule or regulation;
- ✦ infringe the intellectual property rights of any person or entity, including, but not limited to, uploading, posting, publishing, transmitting, reproducing, creating derivative works of, or distributing in any way, information, software or other material obtained through the Service or otherwise that is protected by copyright or other proprietary right without first obtaining appropriate authorization;
- ✦ post, store, transmit or distribute any information, data or material that a reasonable person could deem to be indecent, pornographic, harassing, threatening, vulgar, hateful, racially or ethnically offensive or otherwise inappropriate, regardless of whether such information, data or material or its distribution is unlawful;
- ✦ harm or attempt to harm a minor, including, but not limited to, using the Service to send pornographic, obscene or profane information, data or material;
- ✦ initiate, perpetuate, or in any way participate in any pyramid or other illegal solicitation scheme;
- ✦ engage in any fraudulent activity, including, but not limited to, impersonating any person or entity, engaging in sender address falsification, forging any other person's or entity's digital or manual signature, misleading or misrepresenting your identity or performing any other similar fraudulent activity;
- ✦ transmit or collect responses from bulk, commercial or unsolicited messages (also known as "spam");
- ✦ send multiple copies of the same or substantially similar messages, empty messages, or messages that contain no substantive content, or send very large messages or files to a recipient that disrupts a server, account, blog, newsgroup, chat or other similar service (also known as "mail bombing");
- ✦ collect or harvest emails, screen names or other identifiers of any persons or entities without their prior consent, or participate in "spidering";
- ✦ use or distribute tools designed or used for compromising security, such as password guessing programs, decoders, password gatherers, analyzers, cracking tools, packet sniffers, encryption circumvention devices, keystroke loggers, or Trojan Horse programs, or engaging in any unauthorized port scanning;
- ✦ violate the rules, regulations, terms of service or other policies applicable to any network, server, computer database, service, application, system or website that you access or use;
- ✦ access any other person's or entity's computer, software or data without their knowledge and consent, breach the security of another user or attempt to circumvent the user authentication or security of any host, network, or account, including, but not limited to, accessing data not intended for you, logging into or making use of a server or account that you are not expressly authorized to access or probing the security of other networks without express authorization to do so;
- ✦ distribute programs that make unauthorized changes to software (also known as "cracks");
- ✦ use or run dedicated stand-alone equipment or servers or programs from the customer's premises that provide network content or any other services to others, including, but not limited to, email, web hosting, file sharing and proxy services and servers;
- ✦ restrict, inhibit or otherwise interfere with the ability of any other person or entity, regardless of intent, purpose or knowledge, to use or enjoy their equipment or the Service, including, but not limited to, by posting or transmitting any information, software or material that contains a worm, virus or other harmful feature, or by generating levels of traffic sufficient to impede their ability to use, send or retrieve information; or
- ✦ restrict, inhibit, interfere with or otherwise disrupt or cause a performance degradation or manipulation, regardless of intent, purpose or knowledge, to the Service or any MetroCast (or MetroCast supplier) host, server, backbone network, node or service, or otherwise cause a performance degradation or manipulation to any MetroCast (or MetroCast supplier) facilities used to deliver the Service.

You also may not:

- ✦ copy, distribute or sublicense any software provided in connection with the Service, except that you may make one copy of each software program for back-up purposes only;
- ✦ service, alter, modify or tamper with MetroCast equipment (including any embedded software) or the Service (including the speed of the Service) or permit any other person or entity who is not authorized by MetroCast to do so;
- ✦ access or use the Service with an Internet Protocol ("IP") address other than an IP address provided for you by MetroCast, or otherwise alter, modify or tamper with your IP address assignment or method of assignment;
- ✦ resell the Service or otherwise make available outside of the customer's premises the ability to use the Service (for example, through wi-fi or other methods of networking), in whole or in part, directly or indirectly, including, but not limited to, for operation as an internet service provider or for a business enterprise or purpose, whether or not for profit; or
- ✦ use the Service for any type of use that is not recreational, residential or personal use.

Excessive Bandwidth Consumption

High-speed bandwidth and network resources are not unlimited. Managing MetroCast's network is essential as MetroCast works to promote the use and enjoyment of the Internet by our customers. As explained above, the Service is for recreational, residential and personal use. MetroCast has established a monthly bandwidth usage limit per Service account. Service usage may not exceed the following limits for each type of subscriber account:

MetroCast Subscriber Account: Monthly Bandwidth Usage Limit:

MetroCast Access	25 GB
MetroCast High Speed Basic	100 GB
MetroCast High Speed	250 GB
MetroCast Gamer	350 GB

Use of the Service in violation of the limits above is a violation of this Policy. Note that the retail names of the services (Access, High Speed Basic, High Speed and Gamer) may be subject to change.

Common activities that may cause excessive bandwidth consumption in violation of this Policy include, but are not limited to, numerous or continuous bulk transfer of files and other high-capacity traffic using hypertext transfer protocol ("HTTP"), file transfer protocol ("FTP"), video transfers, peer-to-peer applications and newsgroups. In the event that your usage of the Services exceeds the above-described limits, MetroCast may, in its sole discretion, suspend or terminate your Service account or request that you upgrade your Service level, or subscribe to a version of MetroCast's commercial grade Internet service if you wish to continue higher bandwidth consumption levels. MetroCast's determination of the level of bandwidth consumption by Service accounts is final and binding.

Computer and Data Security

You are responsible for maintaining the security of your computer and any other device that you use in connection with the Service, and any data stored on that computer or device. You are responsible for implementing standard anti-virus practices, including using anti-virus software with up-to-date virus definitions. If you use a wireless modem, router or other device in connection with the Service, you are also responsible for taking security measures that are recommended by the manufacturer of the wireless device.

Email Accounts

Without limiting any other termination rights that MetroCast has under this Policy, MetroCast reserves the right to disable any email account that is inactive for more than ninety (90) days, and to terminate any email account that is inactive for more than one (1) year. MetroCast will consider an email account inactive from the last date that you have logged into and accessed that email account. In order to avoid having your email account disabled, you must log into your email account at least once every ninety (90) days. MetroCast is not responsible for forwarding email sent to any account that has been disabled, suspended or terminated. At MetroCast's discretion, any such email will be returned to the sender, ignored, deleted, or stored temporarily. In the event that a Service account is terminated for any reason, all email associated with that account (and any secondary accounts) will be permanently deleted. MetroCast also reserves the right to delete any email message in any email account that has not been read or retrieved from the account for more than one hundred and twenty (120) days after such message is received. If MetroCast deletes email messages from your account, they may not be retrieved later. You are solely responsible for backing up and archiving any important email.

MetroCast also reserves the right to establish and modify general practices and limits concerning the use of email accounts, including without limitation, the maximum number of days that email messages will be stored, the maximum number of email messages that may be sent from or received by an email account, the maximum size of any email message that may be sent from or received by an account, and the maximum disk space that will be allotted on our servers to an e-mail account on your behalf. You agree that MetroCast has no responsibility or liability for the deletion of or failure to store any messages and other communications or other content maintained or transmitted by using a MetroCast email account. MetroCast may notify you of any such general practices or changes thereto by email.

Policy Violations

MetroCast, in its sole and absolute discretion and without limiting any other rights or remedies it may have, may suspend or terminate the Service for failure to comply with the provisions of this Policy.

If you are a subscriber to the Service, you are responsible for any violations of this Policy by anyone else using it through your account, regardless of whether the violation was done without your knowledge or consent.

You agree to indemnify, defend, and hold harmless MetroCast, its affiliates, shareholders, members, managers, officers, directors, employees and agents from and against any and all claims, demands, costs and expenses (including reasonable attorneys' fees and any cost or fees for investigation of such claims or demands) resulting from you or any user of your account violating this Policy.

MetroCast is not obligated to monitor the activity of Service accounts to determine whether there are violations of this Policy. However, MetroCast reserves the right to investigate suspected violations of this Policy, including the gathering of information from the user or users involved and the complaining party, if any, and examination of material on MetroCast's servers and network. The failure by MetroCast or its suppliers to enforce this Policy shall not be construed as a waiver of any right to do so at any time. You agree that if any portion of this Policy is held invalid or unenforceable, that portion will be construed consistent with applicable law as nearly as possible, and the remaining portions will remain in full force and effect.

Policy Updates

MetroCast reserves the right to update or modify this Policy from time to time. Any such update or modification will be effective immediately upon posting. MetroCast will use reasonable efforts to make customers aware of any changes to this Policy, which may include sending e-mail announcements or posting information on MetroCast's website. Customers of the Service should read any MetroCast announcements that they receive and regularly visit the MetroCast website and review this Policy to ensure that their activities conform to the most current version.

MetroCast Network Management Policy

Printer Friendly

How does MetroCast apply the FCC's Open Internet Policies?

MetroCast provides Internet services to customers located in New Hampshire, Maine, Connecticut, Pennsylvania, Maryland, Virginia, Mississippi, Alabama and South Carolina. Our Internet services are provided over MetroCast's hybrid fiber optic-coaxial cable network, which also delivers video and voice services to our customers. We are committed to providing our Internet services as an open platform for innovation, investment, job creation, economic growth, competition, and free expression.

The purpose of this disclosure is to provide information regarding our network management practices and the performance and commercial terms of our broadband Internet access services to enable our customers to make informed choices regarding the purchase and use of our services, in accordance with the disclosure rules of the Federal Communications Commission. MetroCast does not block any lawful content, applications, services, or our customers' use of non-harmful devices, or discriminate in transmitting lawful network traffic except as reasonably necessary to manage our network effectively for the benefit of our customers as described below. This disclosure is intended to be informational and does not replace or alter the legal terms and conditions of our service, which are posted at <http://www.metrocast.com/policies.cfm>.

Internet Service Speeds

MetroCast's broadband Internet services are available at different upload and download speeds and price points depending on the uses that the customer wants to make of the broadband connection (e.g. email, web browsing, video and audio streaming, gaming, or downloading large files). The specific levels of Internet service that are available can be found at http://www.metrocast.com/internet_packages.cfm for all residential Internet packages and at http://www.metrocastbusiness.com/business_internet_packages.cfm for all commercial Internet packages¹, where customers can also obtain information about the typical applications that are suitable for each service level.

While MetroCast engineers its network to achieve the "up to" speeds for each of the service levels offered, we cannot guarantee that individual customers always will experience those speeds. The following variables (which are often out of MetroCast's control) can affect the actual speeds experienced by a customer:

- Performance of a customer's computer**, including its age, processing capability, operating system, the number of applications running simultaneously, and the presence of any adware and viruses.
- Type of connection between a customer's computer and modem**. For example, wireless connections may be slower than direct connections into a router or modem. Wireless connections also may be subject to greater fluctuations, interference and congestion.
- The distance packets travel (round trip time of packets)** between a customer's computer and its final destination on the Internet, including the number and quality of the networks of various operators in the transmission path. The Internet is a "network of networks." A customer's connection may cross the networks of multiple providers before reaching its destination, and the limitations of those networks most likely will affect the overall speed of that Internet connection.
- Congestion or high usage levels**. If a large number of visitors are accessing a site or particular destination at the same time, a customer's connection will be affected if the site or destination does not have sufficient capacity to serve all of the visitors efficiently. Performance also can be affected by heavy use of our Internet service by our customers, which sometimes results in periods of congestion within our network.
- Gating of speeds or access by the website or destination**. In order to control traffic or performance, many websites limit the speeds at which visitors can download material from their sites. Those limitations will carry through to a customer's connection.
- The performance of the cable modem you have installed**. Modem performance may degrade over time, and certain modems are not capable of handling higher speeds. Please see the "Equipment" section below.

In addition to the variables described above, customers' Internet speed will depend on the service level to which they subscribe. MetroCast performed internal speed tests from a number of points within our networks. Performance data was collected during the "busy hour" (7 p.m. to 11 p.m. Monday through Friday) for each of the Internet service levels offered by MetroCast. Our tests measured broadband performance on a sample of our systems and the results below do not reflect the performance levels to be expected by any individual customer served by any particular MetroCast system.

Internal Test Results²

Service Level	Internet Access	High Speed Basic	High Speed Internet	High Speed Ultra
Mean Download Speed	245 Kbps	5.03 Mbps*	16.34 Mbps*	45.52 Mbps*
Mean Upload Speed	119 Kbps	714 Kbps*	1.43 Mbps*	4.55 Mbps*
Mean Latency (in milliseconds) ³	21	21	21	21

¹In MetroCast's Carthage MS, Forest MS, Kosciusko MS, and South Carolina systems, the High Speed Basic Service level speeds are up to 1.5 Mbps by 256 Kbps rather than 4 Mbps by 512 Kbps, the High Speed Internet Service level speeds are up to 7 Mbps by 512 Kbps rather than up to 15 Mbps by 1 Mbps, and the High Speed Ultra Service level speeds are up to 10 Mbps by 1 Mbps rather than up to 50 Mbps by 5 Mbps. In all of MetroCast's Mississippi systems, there is also a High Speed Economy Service offering and its speed levels are up to 1.5 Mbps x 256 Kbps. These systems and this additional service, respectively, were not included in the speed testing.

Customers are able to test the speeds that they are receiving on MetroCast's network at <http://speedcheck.metrocast.net>.

Customers' use of our Digital Phone service has no discernable impact on their Internet service performance.

Commercial Terms of Internet Service

MetroCast has multiple levels of residential Internet service available, and the price of each service level is set forth at http://www.metrocast.com/internet_packages.cfm. From time to time, MetroCast will make available promotional rates and discounts for our Internet services. More information on our current promotions is available at <http://www.metrocast.com/promotions.cfm>. As set forth in our Internet Acceptable Use Policy available at http://metrocast.com/policy_HSI_AUP.cfm, MetroCast has several monthly bandwidth usage thresholds associated with its different service levels. If a customer exceeds the monthly bandwidth usage threshold associated with their service level, MetroCast may, in its sole discretion, suspend or terminate their Internet service or request that they upgrade their service level, or subscribe to a version of MetroCast's commercial grade service. More information on our commercial grade service levels is available at http://www.metrocastbusiness.com/business_internet_packages.cfm.

Internet Privacy Policies

MetroCast values the privacy of our Internet service customers and follows procedures to ensure that information we collect is reasonably protected. Additional details concerning the types of information MetroCast collects, how the information is used and customer privacy rights can be found at http://www.metrocast.com/policy_HSI_PP.cfm.

Network Management

In order to ensure that our customers receive high quality Internet service, MetroCast uses various practices to manage our network. These practices help to ensure that our customers have access to sufficient broadband capacity at all times, including during periods of high demand, and that our network and customers are protected against malware, spam, viruses and other threats originating over the Internet.

Congestion Management Practices

Except as specifically described below, we do not target specific types of traffic based on the nature of the technology or the identity of the provider, modify protocol fields in ways not prescribed by the protocol standard, or otherwise inhibit or favor certain applications or classes of applications. We may utilize network address translation to enable multiple customers to share a single IP version 4 ("IPv4") address due to the increasing scarcity of IPv4 addresses. In addition, in connection with the transition from IPv4 addresses to IP version 6 ("IPv6") addresses, we may also utilize network address translation or other mechanisms to provide access to IPv4-only supported content to customers whose devices do not support IPv4, or to provide access to IPv6-only supported content to customers whose devices do not support IPv6 content. We do not block or manage any specific protocols or protocol ports, except that we do so to prevent residential Internet customers from operating servers or server-like daemons and processes, or in rare cases we may take other corrective action after providing written notice to a customer who has violated the terms of service.

Residential customers are prohibited from using or running dedicated stand-alone equipment or servers or programs from the customer's premises that provide network content or any other services to others, including, but not limited to, email, web hosting, file sharing and proxy services and servers (e.g. FTP, file or game). For further information regarding prohibited uses see http://www.metrocast.com/policy_HSI_AUP.cfm.

As set forth in our Internet Acceptable Use Policy available at http://www.metrocast.com/policy_HSI_AUP.cfm, MetroCast has monthly bandwidth usage thresholds associated with its different service levels. While MetroCast does not employ any physical methods to limit speeds of heavy users during periods of congestion or restrict traffic, it does contact customers who exceed their applicable monthly bandwidth usage thresholds to advise those customers to reduce their usage, or if they wish to continue consuming bandwidth in excess of their applicable service level limits, to request that they upgrade their service level or subscribe to a version of MetroCast's commercial grade service. As described in the "Commercial Terms of Internet Service" section above, MetroCast reserves the right to suspend or terminate the Internet service of any customer whose use exceeds his or her monthly limits.

Network Security

MetroCast uses a number of tools and techniques to protect its network and customers from malicious and unwanted Internet traffic such as preventing the distribution of viruses or other harmful code and preventing the delivery of spam to customer email accounts. Because the nature of external threats to the network are constantly evolving, MetroCast's network security practices necessarily are dynamic and regularly changing. In general, these security practices should not have any effect on our customers' use of their network connections.

Equipment

MetroCast supports the use of DOCSIS 2.0 and 3.0 modems and non-complying standards will not operate with our network's performance standards. The following modem models are approved by MetroCast to help ensure the best possible Internet performance: DOCSIS 3.0 Motorola SB6121 and SB6180 modems; DOCSIS 3.0 ARRIS CM820 modems; DOCSIS 3.0 Motorola SBG6580 wireless modems; DOCSIS 3.0 ARRIS DG860A wireless modems; DOCSIS 3.0 ARRIS TG852 and TG862 wireless modem/eMTAs; DOCSIS 3.0 ARRIS CM820 modems; and DOCSIS 3.0 ARRIS TM822 eMTAs. Customers may rent modems from us, or obtain them from a third party. Voice eMTAs may only be rented from MetroCast, as eMTAs purchased from third parties are not permitted on our network.

Questions / Complaint Process

Existing MetroCast Customers

Existing MetroCast customers who have any questions or wish to lodge a complaint concerning MetroCast's Internet services or policies should contact your local [MetroCast Technical Support](#) department.

If the question or complaint involves the performance of your Internet service, please first run a speed test at <http://speedcheck.metrocast.net> and provide us with the result when you contact us. If you have home network or wireless devices, try plugging your Ethernet cable directly into your cable modem from your PC to determine whether your devices are the source of the problem.

Other Questions/Complaints

If you are not an existing MetroCast customer but have a question or complaint regarding our Internet service please contact MetroCast's Abuse

* Additional video services may be required for MetroCast Digital Cable services. Equipment not included but is required. In order to receive any MetroCast Digital Cable services at any level a converter of your choice is required. For MetroCast Internet Service a Modem is required. And, to receive MetroCast Digital Phone Service a Phone eMTA is required. Digital Phone may not be available in all areas, [click here](#) to see if it is available in your area.

†HD Broadcast signals are included with subscription to Basic. To receive HDTV signals provided by MetroCast, either an HDTV capable television set (not provided by MetroCast) and an HDTV capable digital converter or an HDTV capable television set with an integrated HD QAM tuner (not provided by MetroCast) is required. In addition, to receive Expanded Basic HD, Digital Cable HD or Premium HD signals, a subscription to that service and a HDTV capable digital converter is required. Additional equipment charges may apply. HD Ultra+ is available as a monthly subscription.

SATISFACTION GUARANTEED

MetroCast.com

*12-month free Wireless Home Networking (WiFi) offer available 7/1/14 through 8/22/14 and is valid only for current video-only or Internet-only residential customers in wired, serviceable areas upgrading to a VIP package. Free WiFi offer is not available to current MetroCast customers already subscribing to Wireless Home Networking. Savings calculated on annual standard à la carte rates for services, WiFi service for 12 months, and installation. Free standard residential installation offer applies only to VIP installations in MetroCast serviceable areas only and expires 8/22/14. Offer not available in all areas. Applicable Broadcast TV Fee, sports fees, equipment charges (i.e., digital converter, eMTA/modem), taxes, franchise fees, activation fees, and other applicable fees and charges are in addition to the promotional rates. Additional fees may apply. Money-back satisfaction guarantee requires cancellation within 30 days. All aspects of MetroCast services, channels and rates are subject to change at any time in accordance with applicable law. Federal law requires subscription to Basic Service to receive any other level of video service. TV Everywhere services are authorized based on customer's video subscription level; all services may not be available on all devices, and smartphone and tablet apps are not available for all networks. MetroCast Internet Service speeds may vary and are not guaranteed. For best performance, use of a MetroCast-approved cable modem is recommended. A DOCSIS 3.0 modem is required to receive the fastest speeds (up to 50 Mbps High Speed Ultra tier, where available) and is strongly recommended for all other tiers. Services available to residential MetroCast customers in wired and serviceable areas only. All services not available in all areas. MetroCast Digital Phone service requires an eMTA phone modem. MetroCast Digital Phone service not available in all MetroCast serviceable areas. All new phone subscriptions are subject to a one-time \$20 per line phone activation charge. Video and Internet features may vary depending on VIP package subscription. Some video and Internet products may not be available as components of VIP Packages in all areas. eMTA phone modem required. Credit check may be required. Additional terms, conditions, and restrictions may apply.

*Offer available 5/30/14 through 7/15/14 and is restricted to MetroCast High Speed Internet service (currently priced at \$50.95 per month) with subscription to Basic & Expanded Basic Video or Digital Phone. Monthly promotional rate is restricted to High Speed Internet service level (up to 15 Mbps, or where applicable, up to 7 Mbps) and applies for 6 months while regular monthly rates apply for Video and Phone. Standard High Speed Internet monthly rate applies thereafter. Promotional offer cannot be combined with other offers, and customer must not have been on a previous promotion within the last 90 days. Additional fees, terms and conditions apply. Applicable Broadcast TV Fee, sports fees, equipment charges (i.e., eMTA/modem), taxes, franchise fees, activation fees, and other applicable fees and charges are in addition to the promotional rates. Discounted installation offer applies only to standard wired and standard wireless residential installations for the service(s) covered by the applicable offer in MetroCast serviceable areas only. Discounted WiFi installation does not include monthly cost of wireless modem. If subscription to either required Video or Phone service is cancelled before the end of the 6-month promotional period, the \$39.95 monthly Internet rate is no longer valid, and Internet service will be charged at the regular monthly rate. MetroCast High Speed Internet speeds may vary and are not guaranteed. Modem required. For best performance and to access top speeds, use of a MetroCast-approved DOCSIS 3.0 cable modem or eMTA may be required. Federal law requires subscription to Basic Service to receive any other level of video service. eMTA phone modem required for Digital Phone. All new phone subscriptions are subject to a one-time \$20 per line phone activation charge. Services available to residential MetroCast customers in wired and serviceable areas only. All services may not be available in all areas. All aspects of MetroCast services, channels and rates are subject to change at any time in accordance with applicable law. Credit check may be required. Other terms, conditions or restrictions may apply.

Payment Due Date	07/13/14

**For Your Information**

Starting July 1, 2014, or with your next billing statement thereafter, all billing statements for customers who subscribe to video services (whether alone or as part of a bundle of services) will include a Broadcast TV Fee of \$1.50 per month.

This fee will defray the rising cost of retransmission consent fees that your local broadcasters have chosen to charge us. If you are receiving video services on a promotional or contract basis as of June 1, 2014, the Broadcast TV Fee will be applied to your bill at the end of the applicable period at the then-current rate.
